3,000+ empowered SAP Business One users

Message from our CEO

“ Our goal, every day, is to have you feel a sense of relief as we work side by side with you throughout your SAP Business One project, ensuring your company transitions to your new system smoothly and with minimal disruptions. The true value of software comes when it is implemented and deployed correctly so that your staff and operations are more effective.

As your business partner, we provide the right balance of software, consulting and support services to help you and your entire team better manage your organization. ”

Dr. Alaa Mugattash

Mission

To become the leading business partner in Jordan by helping SMEs realize their full potential through cutting-edge software solutions, advisory services and unparalleled customer experience.

Values

Innovation
Continuous learning
Professionalism
Integrity
Transparency
Commitment

Vision

To ensure customers' optimum utilization of their software solutions. We do this by driving the success of the implementation and supporting the customer on a continuous basis.

Services we provide to **empower** you.

SAP Implementation

Our team of consulting experts offers a simplified yet comprehensive approach to SAP Business One implementation. Our proven methodology leverages best practices, more than 10 years of experience and over 140 successful implementations to ensure that your project is fruitful.

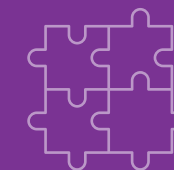

SAP Support

We aim to educate and assist users of SAP Business One to make sure they take full advantage of all functionalities and maintain long-term value. We are here to maximize the value of your investment.

Industry-specific Solution Development

To ensure we cover all aspects of your business, we work hard to develop industry-specific solutions that address unique processes and come with tools and methodologies that enable rapid, reliable implementations to minimize time and costs.

Integration

We provide seamless integration between SAP Business One and new or existing applications, from e-commerce and expense management to intercompany integration and Point of Sale, allowing you to connect and do more business.

Managed Hosting & Cloud Computing

Focus less on your technology & more on your business. Our team leverages strong vendor relationships to provide leading products at competitive prices while our technical staff utilize their years of technical expertise to implement IT solutions in a timely, effective manner.

10 YEARS OF EMPOWERMENT

ABS was founded a decade ago with a clear vision of how technology solutions and professional services can transform growing organizations

10

140+ HAPPY CLIENTS IN 14 COUNTRIES

Over 140 companies and 3,000 end-users run SAP Business One to transform the way they work - and we're there every day, from 3 different offices, to help make that happen

40 EXPERTS WITH DEEP INDUSTRY KNOWLEDGE

When you partner with ABS, you create a long-term relationship with leading SAP consultants that are with you from the very beginning, supporting you and giving you recommendations where they see fit

SAP RECOGNIZED EXPERTISE IN VARIOUS INDUSTRIES

Our Certified SAP Business One Consultants have the ability to meet even the most specific industry requirements. Having worked in diverse industries, we've been honored to earn 5 industry-specific SAP Recognized Expertise certificates

Key Capabilities

Manage your business from your **mobile**.

Thanks to SAP Business One's technical advances, you can access critical information at your fingertips. With decades of experience and continuous development, you'll be able to do just about anything, anywhere at any time and on any mobile device.

Gain access to **real-time insight** with Reporting & Analytical Portfolio.

Many small businesses struggle with the complexities of generating accurate and timely financial reports from company data, and are often forced to export data into various applications and then piece it together to create reports that are out-of-date.

SAP Business One reporting allows you to create up-to-the-minute reports with SAP Crystal Reports, the worldwide standard for reporting.

FASTER decision making
thanks to timely and accurate reports

REDUCED costs
resulting from reduction in time and
effort required to generate reports

EASY access
to critical business information at any time

Cloud — a scalable solution that grows with you.

With Cloud, you get the comprehensive business management tools of SAP Business One with software-as-a-service delivery, offering a flexible alternative to deploying traditional, on-premise infrastructure and perpetual licenses.

For a simple, transparent & predictable subscription fee that covers software, service, and support, you can access the full functionality of SAP Business One to streamline processes, minimize errors and delays, and take confident, decisive action.
